Roundabout

PICK of the Month

PA BY THE KNOCK ON WOOD STUDIO IS A BEAUTIFUL AND THOUGHTFULLY DESIGNED PIECE OF FURNITURE THAT SERVES TO ITS NAME FUNCTIONALLY AND DUTIFULLY.

PERSONAL ASSISTANT

GOOD DESIGN TO US IS SUSTAINABLE, FUNCTIONAL AND beautiful... say the designers of the innovative New Delhi-based Knock on Wood studio. A fitting example of the same would be their latest collection — Yours Truly — which coalesces state-of-the-art, scientific trends with art. Though there are four designs which were launched in this collection — The Butler (a dining cabinet), Mistress (a bedside cabinet) and Solemate (a shoe cabinet) — it's the intelligent and finely-crafted PA which makes it to this coveted page. PA is a compact home office — a multifunctional addition to the home or the home study. Bringing the best of both personal and professional worlds together into one single piece of furniture, it offers a stylish, yet functional way to store files, supplies and other equipments.

Here, the pull-out work top slides out to showcase stationery while the shutters have provision for holding essentials such as pens, pencils, etc. If one uses a fax machine, copier or printer on a regular basis, it has an ideal place to store these items for ease of access. The inbuilt cabinet comes with ample storage and lets its owner add a personal touch while decorating. And if that wasn't enough, the knob on one side of the PA holds a flat piece of wood that opens up to form a chair. Its bold colour scheme and ombre finish provides visual pleasure.
